

3<sup>rd</sup> EUDAT Conference  
24-25 September 2014

# Certification@CINES

use case from community repository

Dr Pascal Dugénie, CINES

Centre d'Informatique National de l'Enseignement Supérieur  
Montpellier, France, [dugenie@cines.fr](mailto:dugenie@cines.fr)

# Certification@CINES - use case from community repository

**Why did CINES apply for DSA ?**

**What has been the investment in time and money ?**

**What did the DSA seal bring CINES?**

**What could be the benefit for EUDAT to certify?**

# Certification@CINES - use case from community repository

## Why did CINES apply for DSA ?

legitimacy

know-how

DSA is a **simple** procedure

relevant **system of reference** for long term preservation

## What has been the investment in time and money ?

## What did the DSA seal bring CINES?

## What could be the benefit for EUDAT to certify?

# Certification@CINES - use case from community repository

## Why did CINES apply for DSA ?

- legitimacy

- know-how

- DSA is a **simple** procedure

- relevant **system of reference** for long term preservation

## What has been the investment in time and money ?

- About one week

- Most documentation already existed

## What did the DSA seal bring CINES?

## What could be the benefit for EUDAT to certify?

# Certification@CINES - use case from community repository

## Why did CINES apply for DSA ?

- legitimacy

- know-how

- DSA is a **simple** procedure

- relevant **system of reference** for long term preservation

## What has been the investment in time and money ?

- About one week

- Most documentation already existed

## What did the DSA seal bring CINES?

- Communication** upon policy requirements, transparency and skills.

- Better **confidence** of the user

- Become an active **DSA board member**

## What could be the benefit for EUDAT to certify?

# Certification@CINES - use case from community repository

## Why did CINES apply for DSA ?

legitimacy

know-how

DSA is a **simple** procedure

relevant **system of reference** for long term preservation

## What has been the investment in time and money ?

About one week

Most documentation already existed

## What did the DSA seal bring CINES?

**Communication** upon policy requirements, transparency and skills.

Better **confidence** of the user

Become an active **DSA board member**

## What could be the benefit for EUDAT to certify?

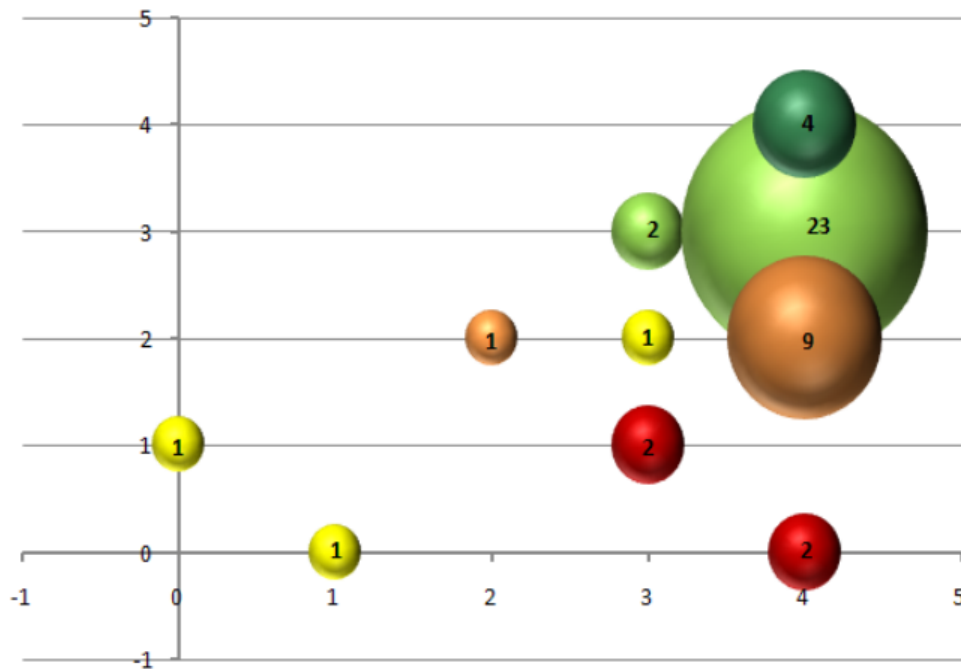

**Differentiation** that other projects have not.

Better formalise and improve the **quality** of the processes

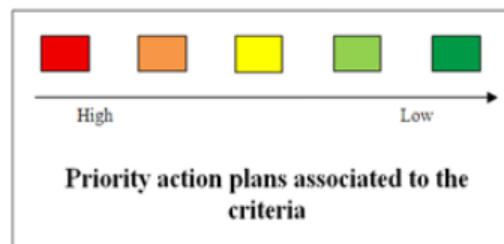

Become the only Grid where data is qualified.

# Comparison of audits pre and post certification

PAC repository assessment  
(external audit done in 2009)

Signification of the metric for this evaluation

PAC repository assessment  
(internal audit done in 2011)
